

Project Cost

The School Building Committee (SBC) selected massing study C.5b, or Bloom, as their preferred design. The SBC submitted this design to the Massachusetts School Building Authority (MSBA) as part of the Preferred Schematic Report on December 9, 2024. On February 26, 2025, the MSBA approved the Town's PSR submission, advancing the project in Module 4: Schematic Design.

The estimated project cost of the Bloom design is \$662 million. This estimation encompasses the school, a renovated field house, and the inclusion of the Central Administration Offices inside the building.

The project team recognizes how significant this project's price tag is; they want to underscore the high cost of doing nothing.

Project Cost School, CO & FH	Total Cost with Grants & Rebates	Construction Duration	# of Phases	Building Location	Modular Max Required
\$662,000,000	~\$522,000,000	4.5 Years	1 building + 1 site	Fields	0
